Weihsueh and I thought that the draft editorial for Paul A (below) would benefit from some language changes to emphasize the positive nature of our process (and changes) in meeting the twin goals of scientific soundness and efficiency.

Attached is a clean and redlined version of our suggested revision. After NCEA review, we'd hope that these changes can be forwarded back up the line.

Hi David and Alisha

Attached are the following draft materials in preparation for Monday's release of the TCE hazard assessment:

Draft TCE and IRIS Communication Strategy

Draft TCE Rollout plan

Draft OpEd from Paul.

We continue to work on these materials but we didn't want to wait until we had every I dotted and T crossed before we sent them over. Please send them forward to Seth and Bob Sussman for their review and comment.

Alisha, Carolyn and I will give you a call in the morning to discuss next steps.

Thanks!

Liz
